Mrs. Kathryn Kammerude, Village Clerk Treasurer  
Blanchardville Municipal Water Utility  
208 Mason Street  
P.O. Box 9  
Blanchardville, WI 53565-0009

1998 Analytical Review DWCCA-570-PJL

Dear Mrs. Kammerude:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1998 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. Please confirm that the advance described as Long-Term advance from general reported on line 1 of the Notes Payable & Miscellaneous Long-Term Debt schedule on page F-14 does have an interest rate of 0. Please also explain the description of "general".
2. The PSC adopted benchmark depreciation ranges during 1996. By letter dated June 18, 1997, with regard to analytical review of the 1996 annual report, your utility was provided with the computation of a 2.29 percent composite depreciation rate to be effective January 1, 1998. Your utility did not use the authorized composite rate during 1998, rather the 1.98 percent composite rate from previous years was used. The 2.29 percent composite rate was used in the 1999 rate case in docket 570-WR-102, therefore it is necessary that this rate be used when computing depreciation expense. To more properly reflect exhaustion of service life of plant assets so that retirement losses will not occur in the future, please note for future reference that the 2.29 percent composite depreciation rate should be used beginning in 1999.
3. During our review, we noted that water treatment expense is reported in the Operation and Maintenance Expense schedule and water treatment plant dollars are reported in Account 332 in the Water Operating Plant in Service schedule. However, the Water Treatment Plant section of the Reservoirs, Standpipes & Water Treatment schedule is not completed. Please furnish this information.
4. During our review, we noted that the utility's water loss reported on page W-10, while down from the 1997 figure, is still very high. Please indicate whether the control panel you describe on line 20 as needing to be fixed has been repaired and indicate if that has made a difference in this problem. Wis. Admin. Code § PSC 185.85 dictates that system losses shall be

no greater than 25% for a class D utility. One avenue of assistance for this problem that you may want to consider is the Rural Water Association of Stevens Point. We understand that they do not charge for their time in assisting utilities in investigating leakage and you do not need to be a member of the association to qualify for help. Their number is (715) 344-7778. Their internet home page address is <http://www.wrwa.org> You will note that they are providing several seminars throughout the state on leak detection between now and the end of the year. You may also call Peter Feneht of our staff at (608) 266-5614 with any questions you may have on this subject.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

## WATER OPERATING SECTION FOOTNOTES

### Water Operation & Maintenance Expenses (Page W-05)

(A/C 600)Salaries are down due to Water Supervisor quitting in early 1998 and wasn't replaced until late 1998.

Repairs (A/C 650) Down due to not having an utility worker for part of the year to do a lot of repair work.

Outside Services (A/C 682) decrease due to water mapping done in 1997.

---

### Meters (Page W-17)

adjustments to record meters that are on hand at year end. Amount used for inventory in 1997 wasn't correct.
